

Compact Heat-Exchanger

HE 60

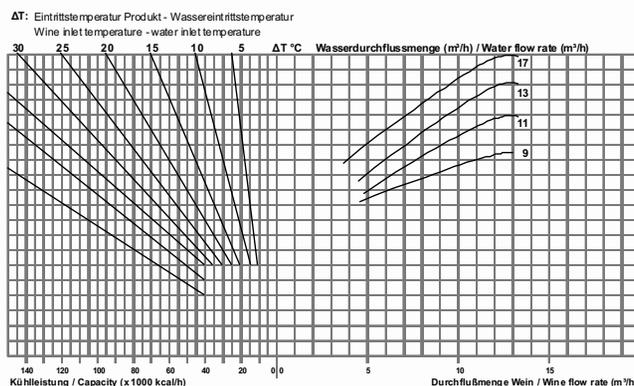

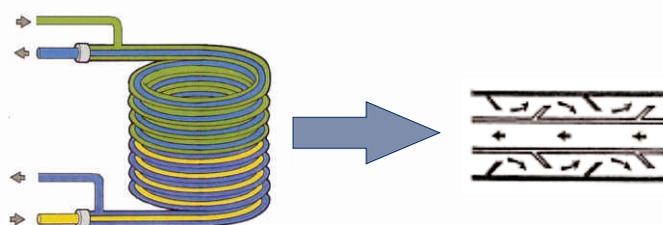

DESCRIPTION

The mobile compact heat-exchanger **HE 60** is comprised of a coaxial heat-exchanger, operating in cross-current. It is made all in stainless steel, and set on a mobile stainless steel chassis with wheels. The **HE 60** was specifically developed for application in the wine and beverages industry.

The tubes are made of food-safe stainless steel and are specially suited for fluids containing particles. Due to the spiral structure of the tubes, pressure loss is minimal. The **HE 60** can be used with a wide range of mediums and liquids including a light cleansing liquid.

The **HE 60** is easily operable and mobile due to its wheels, allowing extra flexibility in its application. The **HE 60** is therefore the ideal solution for vintners that are looking for a compact and cost-attractive solution for cooling and heating liquids through all stages of production.

WORKING PRINCIPLE

Model	HE 60	
Connections	Macon 50	
Dimensions (mm):	L	1.280
	W	1.120
	H	1.170
Weight (kg)	207	

Specifications subject to change.
